AMY GIBSON

Instructional Designer
Searcy, AR | 501-593-9284 | amy.gibson83@protonmail.com

PROFESSIONAL PROFILE

Instructional designer and military veteran with hands-on experience building eLearning modules, interactive training assets, and LMS-based courses grounded in adult learning theory and the ADDIE framework. Skilled at translating subject-matter content into learner-centered, assessment-driven instruction using Articulate 360/Storyline, Canvas, Blackboard, and multimedia authoring tools. Combines curriculum-development expertise with a self-directed portfolio of original eLearning builds — including onboarding training, interactive simulations, and gamified assessment tools — and a leadership background from operational, high-accountability environments.

CORE COMPETENCIES

Instructional Design (ADDIE) • eLearning Development • Curriculum Development • Adult Learning Theory • LMS Administration (Canvas, Blackboard, Google Classroom) • Interactive & Gamified Learning Design • Learning Needs Analysis • Assessment & Evaluation Design • Multimedia Development • Storyboarding & Content Gating • Stakeholder Collaboration • Data-Informed Instructional Decisions • Training Facilitation • Project Coordination

TECHNICAL SKILLS

Articulate 360 • Articulate Storyline • Canvas LMS • Blackboard LMS • Google Classroom • Genially (interactive/branching content) • HTML/CSS for custom learning interactions • Canva • Microsoft Office Suite • Google Workspace • Virtual Learning Platforms

SELECTED INSTRUCTIONAL DESIGN PROJECTS

New Teacher Onboarding & Training Curriculum

- Designed a self-paced new-teacher orientation combining Genially interactive slides with Canvas modules, using Show/Hide gating and Canvas prerequisites to build true completion-tracked learning paths.
- Created scenario-based training assets — including intentionally flawed sample assignments — so learners practice identifying and correcting common errors, applying an active-learning rather than lecture-based design.
- Applied consistent branding and visual design standards across all training materials to reinforce institutional identity and learner trust.

Canvas-Based Certificate Course Development

- Built a full Canvas course from the ground up, including custom HTML learning modules, an animated multimedia introduction, and a narrated instructional video script.
- Designed peer-to-peer interaction activities aligned to specific learning objectives, incorporating structured student response and feedback loops.
- Developed original visual and instructional design systems (typography, color, layout) to create a cohesive learner experience across every module.

Interactive & Gamified Assessment Tools

- Built multiple browser-based interactive review games (quiz-show formats, timed arcade-style challenges, sorting/labeling activities) to reinforce learning objectives across science and math curricula.
- Designed game mechanics — scoring, streak bonuses, immediate feedback — around specific instructional objectives to increase learner engagement and knowledge retention.
- Delivered each tool as a standalone, downloadable HTML asset, demonstrating independent build capability without reliance on third-party authoring software.

PROFESSIONAL EXPERIENCE

Teacher / Curriculum Designer | *CrossPointe Preparatory* Jul 2025 – Present

- Design and deliver learner-centered instruction aligned to curriculum standards and measurable learning outcomes, applying ADDIE-style analysis, design, and evaluation cycles.
- Develop differentiated instructional strategies and custom interactive digital tools to support diverse learning needs and increase engagement.
- Integrate educational technology and original multimedia resources into daily instruction, including custom-built HTML learning activities.
- Analyze student performance and assessment data to inform iterative instructional design decisions.
- Collaborate cross-functionally with faculty to develop interdisciplinary learning experiences and teacher training initiatives.

Scoring Assistant | *Pearson Education (Remote)* Apr 2023 – Present

- Evaluate student assessments against standardized scoring rubrics across multiple content areas and grade levels, ensuring inter-rater reliability.
- Maintain scoring accuracy and productivity metrics exceeding organizational benchmarks.
- Apply analytical and quality-assurance methods to ensure consistency in assessment outcomes — directly informing assessment-design best practices.

Special Education Paraprofessional | *Wamego Middle School* Nov 2014 – May 2015

- Delivered individualized and small-group instructional support, adapting materials to diverse learner needs — an early foundation in differentiated, learner-centered design.
- Collaborated with educators to adapt instructional materials and maintain effective learning environments.

PTF Clerk | *United States Postal Service* Jun 2015 – Jan 2017

- Managed financial transactions, customer service, and administrative operations in a federal, process-driven environment requiring strict accuracy and compliance.
- Demonstrated strong prioritization, organization, and problem-solving under fast-paced operational demands.

UH-60 Crew Chief | *United States Army* Jan 2006 – Dec 2010

- Coordinated technical training and mission-readiness procedures within high-accountability operational environments — experience directly transferable to technical/procedural instructional design.
- Led and mentored junior personnel through structured, standards-based training in operational procedures and safety compliance.
- Managed workflow prioritization, scheduling, and logistical coordination across multidisciplinary teams.
- Awarded Army Achievement Medals, Army Commendation Medal, and Good Conduct Medal for leadership and operational excellence.

EDUCATION

Master of Instructional Design (In Progress)

Quinnipiac University

Bachelor of Science in Psychology

Upper Iowa University

CERTIFICATIONS & SERVICE

- NAUMS Teacher Certification
- CPR Certification
- United States Army Veteran (2006–2010)
